

“Farm” pattern sheet:

You will need:

- A print-out of the four pages of the ‘farm’ pattern sheet and these instructions
- A pair of scissors
- Sticky tape
- FIMO soft or one pack each of the Kits for Kids ‘Farm animals’ and ‘Pets’ for making the animals with
- Some thin card is a good idea for better stability

Step 1

Cut the individual pieces out along the dashed lines.

Step 2

Use adhesive tape to stick parts 1, 2 and 3 together as shown in the illustration below. Place the meadow sheet in the front for the ground. It is best to glue the tree onto the meadow using the flap.

Step 3

Now all you need to do is shape some farm animals out of FIMO soft – then sheep, pig, dog & co. can move in.

Have fun!

By the way: FIMO step-by-step instructions on how to make animals and figures out of FIMO are also available at www.staedtler.com.
